RULES FOR APPLYING SPECIAL FUEL SURCHARGE

Rule 1: General Application

On and after the effective date of this tariff supplement, rates, and charges of this tariff may be increased by up to two percent (2%).

The Commission recognizes that:

- Fuel prices change rapidly and those changes may adversely impact the earnings of some household goods carriers;
- Fuel prices rise at different levels in various geographical areas of the state;
- Fuel-to-revenue ratios may be different for various companies; and
- The need for fuel surcharges may differ from company to company due to the various factors named.

As such the Commission authorizes individual household goods carriers to analyze their own fuel surcharge supplement needs, and then assess any surcharge amount, up to two percent (including 0%), based on the company's operational needs.

In applying the increases provided for under this supplement, first determine the total charges otherwise applicable, then increase that amount by the chosen fuel surcharge amount.

Note: The provisions of this supplement do not apply on non-fuel consuming accessorial rates and charges such as extra labor, delay time and so on.

Rule 2 – Disposition of Fractions:

Fractions resulting from the application of this increase will be dropped if less than one-half cent and increased to the next whole cent if one-half cent or more.
